Modelers Notes is a publication of the Boston & Maine Railroad Historical Society. MN began publishing quarterly in the Fall of 1984. MN released six bi-monthly issues beginning 1996. The purpose of this index is to assist modelers and historians in searching articles of interest.

The index is organized so that any of the columns can be sorted by clicking on the tab on the right side on the top row of each column.

Copies of back issues may be purchased from the B&MRRHS. Not all issues are available on paper. Issues 1-125 are available on CD/DVD in PDF format.

If the author of an entry is unknown, Editor is inserted into the Author / Contributor column.

Each issue typically includes various notes and product announcements. These miscellaneous items and promotions are not indexed.

If you have any questions or corrections please contact the B&MRRHS or Jack Dziadul at jackdziadul@gmail.com
